1. A determined anti-United States campaign in the propaganda of the municipal committee and cells of the Communist party in Santos, Brasil, has been observed by the local Political Police in the first week of March 1947, according to source. The propaganda has emphasized the following points: an energetic campaign against United States imperialism will aid Russia in gaining time to consolidate its position; capitalism can be destroyed only by another victory of the Red Army, and for this the masses must be prepared; Russia is aware that the last barrier to the success of her plans is America, especially the United States; the Communist party's effort to infiltrate the American Republics must be redoubled.
- 25X1X 2. the activity reported in Santos is an implementation of a national party policy, adopted recently in a plenary meeting of the Communist Party in Rio de Janeiro, for an intensification of anti-United States propaganda in Brazil. Source also reported that the Communist press in Sao Paulo has been giving greater space and aggressiveness to its attacks upon the United States, the inter-American defense plan receiving almost daily attacks.
